## Miscellaneous.

WEAR ARCH'D FEET.

**A SORE HEEL IS THE FIRST SYMPTOM** of a failing arch (flat foot) and is known in medicine as a specific ailment, viz.: "policeman's heel." While not at first alarming, it soon grows severe and indicates a serious condition of the foot. Any one so unfortunate may be cured of this by proper mechanical devices the arch of the foot is upheld for a time and the pressure on the heel from the weight of the body relieved. This very painful condition of the foot is often very dangerous, diagnosed as rheumatism or gout. The foot-rest will quickly relieve the pain and by retarding the bones of the arch in proportion, will eventually cure. Persons standing on the feet continually will be subject to the same trouble and will not be sufficient within three years from the passage of the resolution to provide said additional school buildings, to help to keep the same in operation. The court declared that in its opinion that it is necessary that an additional schoolhouse be erected at Glen Allen, a school district, and that the school funds of said school district are not sufficient now and will not be sufficient within three years from the passage of the resolution to provide said additional school buildings, to help to keep the same in operation.
